EDUCATION

B.Tech in CS And AI	2024 – 2028
Newton School of Technology , Delhi NCR	Grade: 8.3/10.0

PROJECTS

Amazon Sales Analysis Dashboard

Tableau Link :

- Cleaned and analyzed Amazon India sales dataset using structured CSV data
- Built interactive Tableau dashboards to track revenue trends and order volume over time
- Analyzed geographical sales distribution across states and cities to identify high-performing regions
- Evaluated product performance based on category, size, and style to identify top-selling items
- Compared fulfillment methods (Amazon vs Merchant) to assess operational efficiency
- Derived insights on B2B vs B2C sales patterns to support business strategy decisions

IBM HR Analytics & Employee Attrition Dashboard

Tableau Link :

- Processed and analyzed HR dataset with 1,400+ employee records and multiple attributes
- Conducted exploratory data analysis (EDA) to identify key factors influencing employee attrition
- Built interactive Tableau dashboards to visualize attrition trends across departments and roles
- Analyzed employee features such as income, job role, experience, and work-life balance
- Identified correlations between satisfaction metrics and employee retention
- Delivered insights to support HR decision-making and improve employee retention strategies
